Anatoly Zykov
Full Stack Developer

Tel-Aviv | 058-569-2226 | anatoly.zykov@gmail.com   Github | LinkedIn | Portfolio

SUMMARY

Full Stack Developer experienced in JavaScript based programming with a background in marketing and product/project management in finance, food-delivery and medtech. Passion to solving problems

TECHNICAL SKILLS

Javascript (incl. Node.js, Express, React) , HTML, CSS, Postgrees, project management tools (Asana, Trello), Git/GitHub

TECHNICAL PROJECTS

Multi-step form - Github | Demo
Well designed multi step form. Tried to make components maximum reusable.
- Used React & Redux.
- Used LocalStorage to keep state and not to lose given answers. (saving to memory is throttled for better performance)
- Custom designed radio and checkbox inputs.

Countries - Github | Demo
Allows to filter countries by region to search country by name, to look detailed country info and navigate to neighbors
- Debounced refreshing of search result for making user experience more pleasant
- Dark and light modes
- Carefully worked with provided API response structure to properly display all information

IP address tracker - Github | Demo
Gets user ip address and location when loaded. Allows to search location by site name or ip.
- Used Leaflet map
- Used CreateContext and useContext instead of Redux for practice purposes

Movie app - Github | Demo
A small react app which allows to search for movie and explore all data related to it
- Implemented thunk middleware
- Added "Loading" message while fetching film data
- Added Favorites functionality (saved to LocalStorage)

Catch colored box minigame - Github | Demo
The main purpose of this mini project was to practice at team work. Also used drag-n-drop events and js animations.
- Developed every single feature as a new branch end merged them into main after mutual code review
- Made this project as a teamwork with protected main branch. Together made 75 commits and 27 pull requests

Quest game - Github | Demo
A two-sided platform with React, Node.js and Postgrees. CRUD for "level" instance.
